DESIGNER

Kai Stania

The power of the Viennese designer Kai Stania lies in the perfect symbiosis between aesthetics and functionality in his work. The impressive list of national and international prizes that he has already been awarded from a relatively young age confirms this: his record includes a nomination for the 'Designpreis der Bundesrepublik Deutschland', iF Product Design Awards, Red Dot Awards, Good Design Awards, Interior Innovation Awards (with Durler), a selection for 'Die Auswahl' of the ten best Austrian furniture designs, etc.

BESCHRIJVING

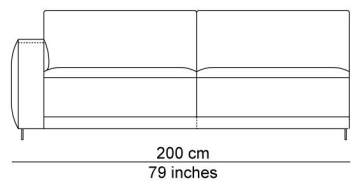

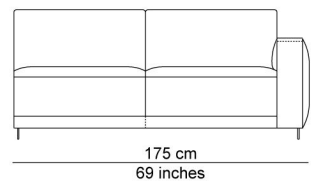

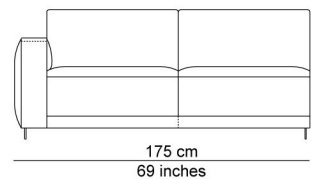

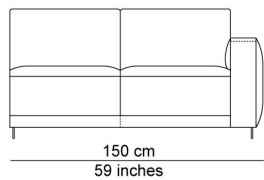

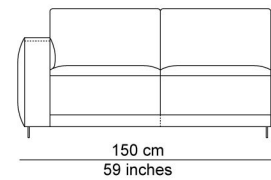

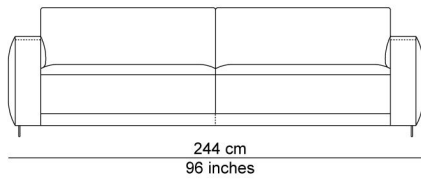

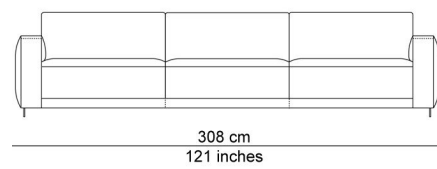

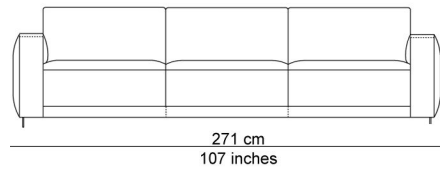

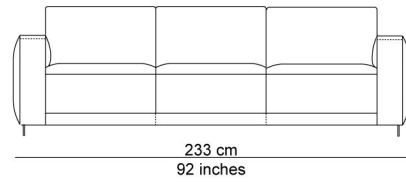

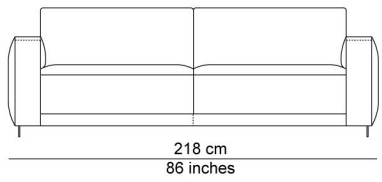

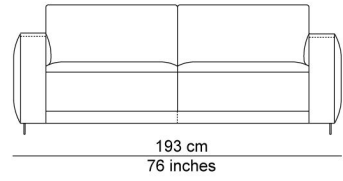

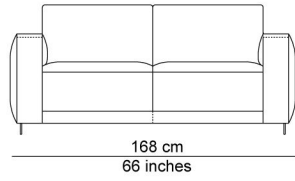

A variety of modules allows endless combinations. All those elements can be puzzled into combinations that will be produced into ready composed multiple seating elements. The base ties the different seating modules together nicely. The seat cushions, which can be extended out, up to 12 cm, and the separate, down-filled back cushions provide added comfort. Add in the removable and adjustable headrest behind the cushions for an extra treat. You can sit upright, but actually the model invites you to relax. It's totally up to you. The name is a metaphor for an island where you feel at home, a landscape to relax and chill after a hard day of work.
