

KINGSTON

DESIGNER

Henk Heres

BESCHRIJVING

Easy chair Kingston has striking, stitched bands on the seating surface which accentuate its slender profile. These bands are either stitched vertically over the entire length of the chair, from the footrest to the headrest, or horizontally on the seat and back sections, excluding the headrest. Devotees of simplicity may request no stitching on the upper part of the chair. Moreover, you can choose between elegant, warm wooden armrests or the same armrests upholstered in leather.
