DESIGNER

Anita Schmidt

Anita Schmidt, the internationally renowned furniture designer, has been working with Durllet since its inception in 1966 – now already with the third generation within the firm.

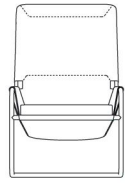

BESCHRIJVING

Copacabana presents a visual language referring to a number of classics but is a completely new design. Surplus elements have been eliminated resulting in a frame only present where needed to hang a leather sleeve as a type of beanbag with a maximum of sitting comfort. Although it looks very simple, this design requires a high finishing level. A mechanism allows you to adjust the headrest to your ideal position. Together with the corresponding foot rest, you can sit back and let yourself go in the Copacabana. The frame can be coated in a colour of choice, which gives the armchair a unique look.
